

Omar's Haunted Trail Cemetery Fence Sections

The top and bottom cross bar is cut from 5/4 treated deck boards.

Cut them to size 1 1/8" x 1 1/4" x 8'

The two ends are made from 2" PVC Pipe. Cut slots so cross bars will fit inside end posts.

The middle uprights are made from 1/2" PVC

Drill holes in cross bars so 1/2" PVC pipe will slide in snugly. Top row can be nailed with a 5/8" brad.

Do not nail bottom rail as they need to fit over rebar to stand upright in the cemetery.

Use gorilla glue to glue 1/2" PVC pipe in place and to glue cross bars into 2" PVC pipe

Glue skull whistles into top of 1/2" PVC.

Fill 2" PVC with Great Stuff expandable foam to seal the top. Cut excess and sand so top is flat and smooth

Paint with silver spray paint
