DISTRESSED CLOTHING

Whether your making a Corps, or perhaps a Zombie.....hey they can't go around naked....right?!!!!! They gotta have a sense of Fashion as well...!!!!!!So without further Adeiu!!!

OK Step 1, you gotta get some older scrap Clothing....(here is \$13 for a shirt and pants from Value Village in Barrie...)

Right Step 2 - next, using Files, Sanders, knives a rasp, anything slightly tear up and "wear the Clothing"..

Tear seams.....use the sanders and files to wear down the logical spots that would normally wear on your clothing!

Areas like shoulders, knees, elbows.....ass.....you know, the regular....

Next.....Bury it.....also pour water on it.....here you have our "Clothes garden...." where we grow great Distressed clothing.....

The point to this is to try to "Rot" out the clothing, and on that note, the more natural the fiber the better, cottons and wool's are great, as they will deteriorate well...
