Jack & Dave's
Meat Emporium
presents
THE LABELS

All labels and signs print on a single sheet of paper.
I have even rotated the pages (when necessary)
to fit standard sized print paper for you.>

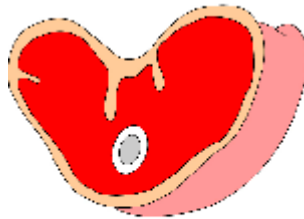

Labels are fitted to specific sized cans, as noted.

I will add more as I make them.

If you have something specific you need, email me.
I'll see what I can do.

WALL SIGN

This is just a wall sign for your butcher shop. Center it on one sheet.

IT'S GOOD.

BOXES

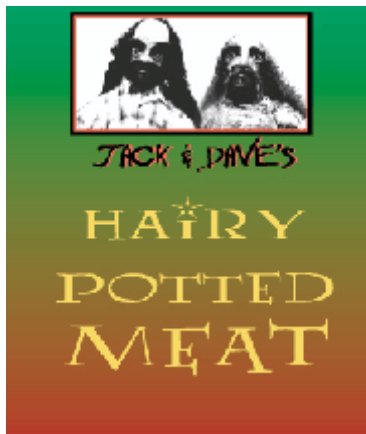

Print these out, one per sheet. You can either cut them out and glue them to the front of a box, or if you wish to create a "stack" of boxes (creating depth without actually having boxes), simply print the design centered on each page, bend back the edges, trim as needed, glue together and then glue entire "stack" onto a sheet of cardboard.

(2 per sheet)
