## Impaled and Lovin' It

Attaching an impaled corpse to the wall is just okay until you add a little life to it. Hide a small speaker behind the body out of sight, and attach some fine fishing line to the lower jaw. You could even rig up movable glass eyeballs if you really want to spook them. Then hide the actor operating the "Dead Ventriloquist dummy" behind the wall, and get ready for some fun. If you can make small unnoticeable holes, or position a mini video camera to allow the operator to view patrons on a monitor inside the wall a more personalized assault can be made. Have thunder sound effects and lightening from a strobe start the performance off. Great to keep crowds entertained while waiting in line.
