## Tombstones

### Summary

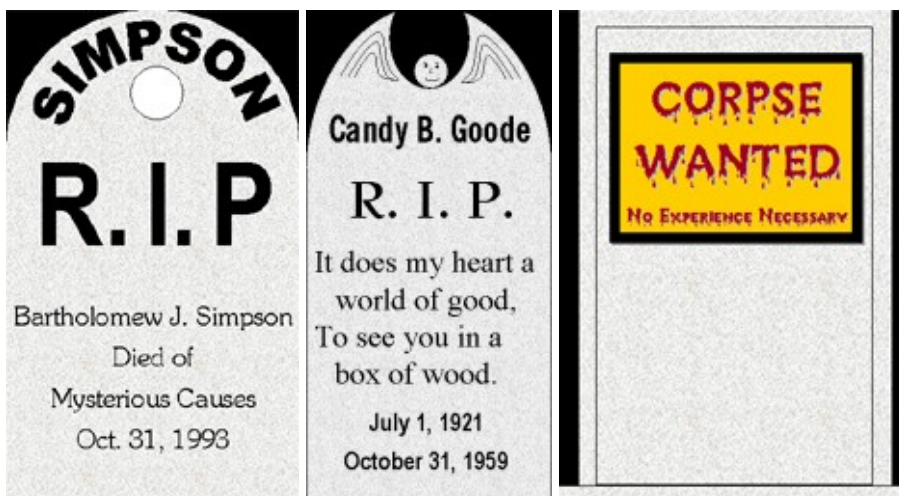

I originally built two tombstones out of cardboard for Halloween'93. Inside the tombstones were 12 volt lamps to illuminate the R.I.P. lettering on the tombstones. In 1998, I built 5 additional tombstones out of wood. In 1999, I stopped using the cardboard tombstones and built two more tombstones from wood and eight tombstones from Styrofoam. In 2001, I added 16 more tombstones made from Styrofoam.
