Commercial Flicker Products

There is both art and science behind making your own flickering lights. But if you need something reliable now, you should consider a commercial solution...

Please read our disclaimers as to the timeliness and origin of this information.

The unit is available for sale at most stores that carry stage lighting equipment.

Manufacturer web site: "<http://www.gamonline.com>".

Silk flame units

In the space of about a year, silk flames went from rarities to something you can occasionally find on closeout at Pic-N-Save [April 2002].

Rather than attempt to list specific models, a neverending task, I'll just point you to some of the larger manufacturers.

Inexpensive (under \$100):

- American DJ - Torch Light
- Antari - Diablo Flame Machine
- VEI - Vulcan's Fire
- Chauvet - "Bob"

Fancy:

- Le Maitre - Le Flame
- www.european-events.co.uk/flames.htm - a huge assortment of fake flames, some for rent; some for sale
- http://www.10outof10.co.uk/acatalog/10_out_of_10_On_Line_Silk_Flame_Effects_80.html - a huge assortment of fake flames for sale

Fake candles and flame tips

Numerous companies offer artificial candles, with electronic lights.

We have a page dedicated to commercial fake candles.

Electronic flicker circuits

Electronic flicker circuits control a light bulb, making it flicker like a flame or candle.
